Part B

1. Activities Reflecting the Goals & Objectives of the Institution

The curricular and co-curricular programmes were in line with the Institution's goals and objectives. The curriculum and syllabus addressed the needs of society through human rights education, value education, environment education and self development through educational psychology and sensitization to equality and equity. ICT also has been included in the curriculum.

We have formulated the vision of training well motivated teachers who are physically, intellectually competent, emotionally and morally upright, socially and professionally committed and spiritually inspired in order to become instruments of social transformation. It is satisfying to note that there was a concerted effort by the faculty and staff to achieve this aim. The students have done well in various areas of their training. The college stands today as one of the best college of education in the state.

2. Innovation in Curricular Design and Transaction

It is the aim of the Institution that the students who take their training here become well formed guides who will accompany the young learners on their journey to becoming fully human persons. The college offered an all round training in intellectual, cultural, social, emotional, physical, aesthetic, moral and spiritual.

Right in the beginning, the faculty members prepared course outlines with specific objectives for the university examination. All the teachers, through class tests and Internal test and revision Test, kept an eye on successive academic progress of the students.

3. Examination Reforms Implemented

The students' entry knowledge and skills were not formally assessed but attempt was made to know the existing knowledge and skills through interaction with them in the classroom. Language Teachers, formally assessed the entry level of the students, which they used for remedial and advanced level teaching. The Psychology Teacher tested the students' intelligence, achievement motivation,

Teacher effectiveness and personality through Psychological tests and the results were used for personal and academic guidance by the faculty. Together with these tests the students were continually tested and evaluated in the form of cycle tests in theory subjects.

The test scores were used for remedial teaching and academic guidance to all the three groups - the average, the below average and the above average. Thus opportunity was provided for the fullest growth of the total individuality-cognitive, affective and psychomotor.
