Workshop on World Class Curriculum Design

This workshop helps us realize the importance of curriculum design and development. While designing curriculum we have to consider the outcome as well as the richness of the subject. It helps us enhance the teaching and other skills of our faculty members and make them aware about the modern teaching tools and methodologies which have to be used in the process of teaching and learning. It was conducted by **Sr. Amali Pushpam**, Asst.Prof, Dept.of Information Technology, Bon Secours college for Women on 31-7-2017. This workshop is an eye opener to us. She insists the importance of using new methods for evaluating the students' learning and the appropriate order for framing the curriculum. Then common discussion was held about new curriculum design and feedback was collected from staff members regarding new concepts which are to be added in new curriculum.
